

DINMTPX-MF-SA

OFFLINE MIFARE PROXIMITY READER

DINMTPX-MF-SA is an offline reader for access control. The Reader can be configured via USB connection or via card configuration. Issuing user cards is done by the software with the help of the desktop USB card reader. The access rights are written in the user card itself. The reader is compatible with our Access (PROA MS) and Hotel (PROH MS) softwares. The collecting of the past events can be also done by USB connection or by Event collect card.
